

GOVERNOR MAKES ADDRESS AT FAIR

Compliments Southside Counties on High Order of Exhibit.

AWARDS OF CORN PRIZES

Street Committee Gives Out Contract for Paving Sidewalks.

Times-Dispatch Bureau, 109 North Sycamore Street, Petersburg, Va., October 28.

The attendance at the Southside Virginia Agricultural Exhibit to-day was equally as large, if not larger, than that of yesterday. There were a great many more country people in the city to-day than yesterday, and their feeling was one of pride in the splendid showing made by the Southside counties in all the varied products of the farm.

An interesting feature of the attendance yesterday and to-day was the presence of 1,300 white school children, and of an equal number of colored children to-day. Governor William Hodges Mann came over to-day, and at 12:30 o'clock delivered a brief address. The Governor complimented the high order of the exhibit and spoke of the wonderful progress made in farming in the past few years. It was his intention to see the agricultural products of Virginia doubled during his administration, and he believed this result would be accomplished if the farmers of the State would abandon the old and adopt the new methods of farming, which are showing such remarkable results. The hope lies in large measure in the boys of the farms, who are being taught in demonstration work and who are reporting such splendid success. If all the farmers would take hold of this work the crop production would be doubled, and Virginia would soon take the place to which she is entitled, of first in the Union.

Governor Mann spoke at some disadvantage on account of the noise around him.

Corn in Corn Yield.
Four years ago the demonstration was started among the boy farmers in Virginia. The highest yield reported for the first year under this method was sixty bushels per acre; the second year the highest yield was eighty bushels, and this year the highest yield was 135 bushels. T. O. Sandy, who furnished these facts, said that next year would show a yield of 200. These figures show a remarkable gain each year, with the limit of corn production per acre not yet reached.

Corn Prizes Awarded.
Morris Ogden, of Sutherland's, Dinwiddie county, aged sixteen years, carried off the first prize for the largest yield of corn per acre—148 bushels. Arthur Bellwood, of Chesterfield, gave second prize, his yield being 120 bushels. John Jenkins, of Nottingham, received third prize for a yield of 135 bushels, and M. L. Deshaize, of Dinwiddie, received fourth prize for 120 bushels, and W. P. Prossie, of Dinwiddie, received a ribbon for 102 bushels.

Other prizes were as follows:
Men's Class.
Yellow corn, best ten ears—First prize, James Bellwood, Chesterfield; second, W. E. Webb, Dinwiddie; third, James M. Beck, Dinwiddie; fourth, White Oak Stock Farm.

White corn, best ten ears—First, James Bellwood, Chesterfield; second, Frank White, Blackstone; third, S. B. Wynne, Dinwiddie; fourth, H. I. Hood, Crewe.

Boys' Class.
White corn (county class), best ten ears—First prize, J. W. Matthews, Jr., Lawrenceville; second, Thomas Ford, third, Garrett, fourth, Eustace Gunn—all of Dinwiddie.

Prizes were also awarded to individual farmers for each of the counties showing the best ten-ear exhibits of corn. There were four of these prizes to each county.

Namozine district, Dinwiddie county, had a number of boy corn exhibitors who received prizes.

The judges have been busy all day in awarding prizes in the various departments. This work has been a difficult and a delicate one.

Paving Committee awarded.
The street committee met last night and opened proposals for the construction of 10,000 yards, more or less, of cement sidewalk pavement. There were only three bidders for the work, all Petersburg firms. The contract was awarded to the Coleman Construction Company as the lowest bidder, at \$1.04 per yard.

The city is carrying on extensive but gradual street improvements, to be continued year by year, until the streets and sidewalks are put in modern condition.

Report of Deaths and Births.
The report of the Health Department for the month ending October 26, shows a total of sixty-five deaths in the city as against forty-seven for the corresponding month of last year—whites, 27; colored, 38.

Of the deaths, seven were under the age of one month, and ten between the ages of one and five years, and only one over eighty years.

There were ten deaths during the month of tuberculosis, three of diphtheria, two of typhoid fever and four by accident.

The report shows a total of fifty-

four births during the month—whites, 26; colored, 39.

Personal and Otherwise.
Mr. and Mrs. L. B. Hargrave have issued cards to the marriage of their daughter, Helen Virginia, to Henry Ernest Schulte, Thursday evening, November 3, at 8:30 o'clock, at the residence on Shepherd Street.

The annual hall of the Young Men's Hebrew Association was given last night at Liberty Hall. A large assemblage was present and the occasion was very enjoyable.

Miss Grace Wilcox will leave to-morrow for New York to attend as maid of honor at the marriage of her cousin, Miss F. E. Brooks, which occurs on November 2.

WHITE EXPLAINS LAYMEN'S WORK

Greater Religious Activity Discussed by Pastors in Conference.

With largely increased attendance the leaders' training conference for the Laymen's Missionary Movement, which was opened in the Central Young Men's Christian Association on Thursday, was continued yesterday afternoon and evening. Mainly educational in its aims, the conference also proved highly inspirational. Valuable educational ideas were developed by the exchange of views of prominent mission workers, while simultaneously new and greater interest was created in the movement which has as its object the evangelization of the world in this generation.

The conference proper closed last night, its work, however, will be supplemented by a mass-meeting, which will be held at the City Auditorium to-morrow afternoon.

One of the most valuable features of the meeting was the pastor's conference, which was held yesterday afternoon from 4 until 6 o'clock. Ministers of all Protestant denominations were present and participated in the discussion of the main subject discussed at this session concerned the weekly offering for mission purposes and the proper proportionment of the budget.

Address by Mr. White.
"Missions in the program of Christ," was the subject of the address, which was delivered by J. Campbell White, who presided at all of the sessions and directed the general work of the conference.

The speaker said he felt that the proposition should be taken from the sentence which set forth his topic. It should be the highest duty of every man, he asserted, namely, to pray, plan, serve, give and study. Twenty years ago, he declared, worldly evangelism was the only method of a few enthusiasts. Now, for the first time in the history of the world, the orders of Jesus Christ are being literally carried out.

The feature of the session was, perhaps, the address by Bishop Arthur S. Lloyd, who presided at the session. His "Place of Leadership in Missionary Education, Finance, Prayer for Missions and Securing Missionary Recruits," was the subject of his address.

Dr. C. F. Reed of Nashville, had for his topic, "What Missionary Literature Should Be Exploited and How." He urged the use of the Bible, which is being issued in the interests of the Laymen's Movement, and the adoption of certain books by home mission societies.

GEM OF EVIL OMEN HAS REAPPEARED

Believed Lost at Sea, Hope Diamond Turns Up in Paris.

CHEAPENED BY HISTORY

Misfortune Has Followed Every Owner of the Famous Stone.

Paris, October 28.—The famous Hope diamond, which has brought death and misfortune to every person who has owned it and which was believed to be safe at last at the bottom of the China sea, has reappeared in Paris. It is now on sale in the window of a jeweler in the Rue de la Paix, but its evil reputation has affected its price. Lord Francis Hope sold it for \$148,000, but it can be bought now for less than \$100,000.

About a year ago the diamond was bought by a Persian named Habib, who was said to be acting for an Indian potentate. He took passage for India on the French steamship *Bayne*, which was rammed and sunk in the China Sea by the *Onda*.

It was supposed that all on board was lost, but by a peculiar coincidence the man who has brought the famous stone back to Paris is a Persian named Habib. Whether he is the original owner returned from the dead cannot be told, but in any event another mystery has been added to the diamond's long list.

May Yoke Were It on Stage.
The diamond became well known in America when it scintillated on the breast of Lady Hope, once the beautiful May Yoke, when, after her marriage to the son of the Earl of Newcastle, she returned to the vaudeville stage. She fell a victim to its baleful influence. After a brief married life she eloped with Putnam Bradley Strong, son of Ex-Mayor Strong, of New York. With him she traveled all over the world, growing less and less prosperous year by year.

Last February she became the proprietor of a cheap lodging house in Seattle, and then lost even that, and was reduced to singing in the cheap music halls in the cellars of San Francisco. A few months ago she was stricken by paralysis while singing, and is now said to be a hopeless paralytic.

Thief Slain by Dog.
But long before May Yoke ever heard of the diamond it had a sinister history. The first known of it was when it was brought to Paris in the reign of Louis XIV. by a traveling jeweler named Tavernier, who is said to have stolen it from a Hindu idol. Then it weighed in its rough state 112 carats, but after it had been recut by an Amsterdam jeweler it weighed sixty-seven and a half carats. Tavernier later was torn to pieces by wild dogs in Constantinople.

King Louis gave the gem to Madame de Montespan to wear. She lost his love, and he abandoned her. Nicholas Fouquet, Intendant of France, borrowed the diamond from the King and wore it. He was disgraced and died in prison. Marie Antoinette begged for the jewel and wore it. She was beheaded, as was King Louis himself.

The great blue stone was also worn by the Princess de Lamballe, who was torn to pieces by a French mob. William Falk, the jeweler who recut the stone, died a ruined man. His son, Hendrik, who stole the jewel from his father, committed suicide from remorse. Some years later it was sold to Francis Beaulieu, and he died in misery and want.

Trail of Murder and Misery.
Daniel Ellason, a London Jeweler, got possession of the gem and sold it to Henry Thomas Hope, a rich London banker, just before he failed in business. The banker suffered a long series of misfortunes, including the death of his favorite son, and the loss of his fortune. He became a bankrupt and lost his wife. He sold the diamond to Simon Frankel, a New York jeweler, and it brought him financial difficulties. The next owner, Jacques Colet, went mad and committed suicide. Prince Ivan Kanitovski, who bought it from Colet, was killed by Russian revolutionists, and Mile Ladue.

The stone passed to Lord Francis Hope in time, and he became a bankrupt and lost his wife. He sold the diamond to Simon Frankel, a New York jeweler, and it brought him financial difficulties. The next owner, Jacques Colet, went mad and committed suicide. Prince Ivan Kanitovski, who bought it from Colet, was killed by Russian revolutionists, and Mile Ladue.

GEORGETOWN WILL MEET CAROLINA

Classic Gridiron Battle to Be Played in Washington To-Day.

Washington, October 28.—With half of a very difficult schedule out of the way the Blue and Gray football eleven said by many to be the speediest ever seen on a local gridiron, will take on its opponents to-morrow afternoon in the annual rivalry from the University of North Carolina.

In past years this encounter has always been one of the most prominent on the Georgetown schedule, and every instance that the two eleven have clashed a red-hot scrap for the laurels of victory has taken place. Two years ago the team from the South succeeded in making a scoreless tie with the locals, while last fall Georgetown was defeated by a single touchdown in a game replete with squabbles.

The closeness of these battles of the past has served to make the players on both aggregations anxious for victory, and hence there is certain to be every effort possible put forth by those who take part. The outcome will also play a prominent part in the deciding of the South Atlantic gridiron championship.

The Hilltoppers will go into the battle with a greatly shifted line-up. Walsh is to be used some at quarterback and Slittinger will be utilized at one of the line extremes. As Hegarty is suffering from a tummy attack he is expected to be out of the game, and hence there is certain to be every effort possible put forth by those who take part. The outcome will also play a prominent part in the deciding of the South Atlantic gridiron championship.

The Hilltoppers will go into the battle with a greatly shifted line-up. Walsh is to be used some at quarterback and Slittinger will be utilized at one of the line extremes. As Hegarty is suffering from a tummy attack he is expected to be out of the game, and hence there is certain to be every effort possible put forth by those who take part. The outcome will also play a prominent part in the deciding of the South Atlantic gridiron championship.
